UNM IC-CAE Summer Research Funding Opportunities for UNM Undergraduate and Graduate Students

Twenty students from UNM campuses will be chosen for stipends of \$3,000 to conduct research, write an 8-page research paper, and present a poster on a topic involving global, national, or human security¹ (GNHS is a national IC-CAE program). Students should identify a designated

faculty member as a mentor. Projects must be completed during the summer (June - July). Stipends will be awarded in the summer term when the project paper and a poster are submitted and approved. Posters will be presented in September 2022 as part of the UNM Global, National, and Human Security Symposium. Outstanding papers may be chosen for an oral presentation by their authors at the Symposium.

Eligibility

Applicants must have participated (or intend to in 2022-3) in NSSP/CTSP/CSHS academic programs, meetings, recommended courses and/or sponsored events. ***Students with a major or minor in STEM areas, such as computer science, information technology, engineering, applied math, statistics, physical or natural sciences, or in global, national or human security studies, such as topics in geography, psychology, economics, political science, international studies, ethnic studies, languages, or sociology are eligible.*** Contact Dr. Ken Carpenter (carpenk@unm.edu) if you have any questions.

You must have a successful academic record with coursework related to your research topic and must supply the name of a faculty member who we may contact and has knowledge of your previous work or may work with you on your project. Women, minority and non-traditional students are strongly encouraged to apply.

Step 1. Apply through filling out the second page of this announcement and submit it before May 6, 2022 to gilfeath@unm.edu.

Step 2. You will be notified of acceptance before May 10 or perhaps a preliminary acceptance pending revision of your topic question.

Step 3. Submit a draft paper by July 22 to gilfeath@unm.edu. Comments will be returned within 5 days. Detailed guidelines on preparing research paper and poster will be provided.

Step 4. Prepare final paper and poster and submit by August 5, 2022.

¹ **Human Security** as envisioned in UN 2012 General Assembly resolution 66/290, addresses widespread and cross-cutting challenges to the survival, livelihood, and dignity of people, including environmental, climate, and personal security and safety.

Summer GNHS IC-CAE Research Application Form - 2022

Name:

UNM ID #:

Your active Email address:

Telephone:

Name and Email address of a faculty mentor:

The application must be submitted no later than May 6, 2022, but we encourage you to apply as soon as possible – notification of acceptance is by May 10. If you have questions or want more information or help with the application, contact Ken Carpenter, GNHS Academic Coordinator: carpenk@unm.edu. You will receive \$3,000 when the paper and a suitable poster are completed and accepted.

Project Proposal

Please include the following as attachments if necessary:

1. A brief description (<150 words) of a **technical or policy question** that you would like to propose for your summer research project. This is to be a **question** on a specific technical, policy, or security issue which you will analyze and provide judgements on based on your analysis.
2. A brief description (<75 words) of why you think you have the background to take on this project: e.g., courses you have taken in the subject area, other research you have done or papers you have written, books or articles you have read, or your related work experience, etc.
3. I understand that if this work is based on a prior course effort it must contain significant additional material or analysis and must follow the GNHS paper guidelines.
